

“Beavers, brooks & balance - How our consumption is changing nature”

Program: 20 and 25 June 2025

Searching for clues: Beavers on the Isar

Friday, 20.06.2025 | 15.00-18.30 | Meeting point: Brudermühlstraße subway station on Roter-Turm-Platz

On the guided beaver excursion with the beaver manager in South Bavaria Gerhard Schwab around the Flaucher in Sendling, we will explore the habitat of the beaver together with the Environmental Lecture Series. This example in the middle of the city will be used to show how consumption, pollution and water pollution affect ecosystems. The entire event is in English and free of charge for students. Binding registration at info@bene-muenchen.de

Ringvorlesung Umwelt lecture

Wednesday, 25.06.2025 | 18.00-19.30 | Hybrid lecture

“Plastic Packaging and Consumers - From Shopping Cart to Landfill?” by Dr. Thomas Decker. In this lecture, among other things, the responsibility for the plastic flood and, using scientific studies and practical examples to show how consumers can reduce their packaging. Location: TUM Campus Z7, Lecture hall 2750, Arcisstr. 21, 80333 MUC. Additionally via Zoom: Link on the website: www.umwelt.asta.tum.de/en/ringvorlesung/
